'Blood Bank' a Misnomer, Red Cross Volunteer Says

A blood bank isn't really a bank, according to Mrs. Robert Orsini, blood chairman for the Torrance-Lomita Red Cross branch, who is busy recruiting donors for the Bloodmobile's visit to the Elks Lodge, 1820 Abalone, Thursday, Nov. 19.

Mrs. Orsini says in the sense that blood is stored briefly at the Blood Center until it is distributed to hospitals, the term "blood bank" is applicable, but in the sense that a donor's blood is stored in a vault until he calls for it, the term is extremely inaccurate.

She says the system by which a group gives blood, thereby assuring future blood needs to every group member and his family, is more closely related to an insurance plan rather than a savings account.

"THE RED CROSS group participation system is perhaps most closely related to the "term insurance" idea wherein periodic "premiums" are required to keep the policy in force," the chairman says.

"If groups and individuals feel that they need not give anymore 'because we put blood in the bank last year that we haven't yet used,' the Red Cross blood protection system will break down."

STRONGLY stressing that the Red Cross plan is not a banking system, Mrs. Orsini says it is a system closely related to term insurance in that every member of a group will be fully protected only as long as the group continues to participate.

Group or individuals wishing to pay their "blood insurance premiums," by being donors Nov. 19th, from 2 to 6:30 p.m. should call Mrs. Orsini at FA 8-0647 or FA 8-0510 or TE 2-8321.

Quiz Kids Win on TV

Four varsity scholars from South High defeated a team from La Mirada High School on KNXT's "Scholarquiz" television program. The shows were pre-recorded for showing last Saturday.

Arnold Shapiro, director of the television program, said the show was "one of the best programs and one of the most responsive audiences" ever to appear on "Scholarquiz."

More than 390 fans—participants of the two competing schools—were in the studio for the contest.

The Spartan team, which included Suzanne Burr, Carl Eastlake, John Jackson, and Sid Orr, defeated the La Mirada school by a score of 155 to 115.

The quiz show is based on American history, literature, and government.

PV Youth Leaves for Atom Meet

Selection of Allen Gibbs, 17-year-old Palos Verdes High School student, to serve as a delegate to the sixth annual National Youth Conference on the Atom has been announced by the Southern California Edison Co's southern division.

Gibbs, who lives at 2717 Palos Verdes Drive North, will join five other outstanding high school science students chosen from throughout Central and Southern California to attend the conference as guests of the Edison Co., according to L. E. Jenkins, district manager.

Accompanying Gibbs to Chicago, also as the company's guest, will be his science teacher at Palos Verdes High, John Parrish of 222 1/2 Palos Verdes Blvd.

The six California students and their teachers will fly from Los Angeles to Chicago today. There they will join some 600 other outstanding science students and teachers and have an opportunity to meet leaders in nuclear and other scientific fields.

Conference Trip Okayed

Neil A. Lewis and Roderick A. McDaniel, members of the staff of the Educational Materials Building for the Torrance Schools, will attend the annual conference of the Audio-Visual Educational Association of California in January.

The three-day conference will be held at Asilomar State Park in Pacific Grove, Calif., Jan. 28 through 30.
